Introduction of set product

Heavy-duty nippers

J150KNG

Long-nose pliers

J150RG

Angled tip long-nose pliers

J150RBG

Long-nose pliers with vertically angled tip

J150RBTG

Stainless steel long-nose pliers

J150RSTG

How to use the product

*The color of the grip adapter included in the set product is black.

Heavy-duty nippers + Grip adapter

- Two types of blades (with or without hole) can be selected depending on usage.
- Because of the high hardness, cutting performance and durability of the blades, the nippers are applicable to electrical work and various other fields.
- Matted grip is easy to grasp and prevents slipping.

Cutting Stripping*
* Blade hole diameter: φ 1.5, 1.8
Piano wire cannot be cut

Model No.	J150KNG	
Full length	163mm	
Blade length	21.0mm	
Blade hole diameter	φ 1.8mm	
Cutting capacity	Steel wire	φ 2.0mm
	Copper wire	φ 2.6mm
(Product) weight	150g	
Retail/User prices	open price	
JAN Code (4963202-)	001458	

Long-nose pliers + Grip adapter

- Suitable for assembly, repair and disassembly work for arts and crafts, precision equipment, etc.
- The tips demonstrate their durability particularly in grasping and bending work. The blades provide excellent cutting performance.
- Matted grip is easy to grasp and prevents slipping.

Gripping Bending Cutting
Piano wire cannot be cut

Model No.	J150RG	
Full length	163mm	
Blade length	10.0mm	
Cutting capacity	Steel wire	φ 1.5mm
	Copper wire	φ 2.6mm
	Stranded wire	5.5mm ²
(Product) weight	125g	
Retail/User prices	open price	
JAN Code (4963202-)	001342	

Angled tip long-nose pliers + Grip adapter

- Long-nose pliers with vertically angled tip (horizontally angled tip) useful for work in tight places
- ROPROSS' bending direction and angle (30°) make work easy even in tight places where conventional pliers cannot be laterally opened.
- The blade provides outstanding cutting performance.
- Matted grip is easy to grasp and prevents slipping.

Easy even in tight spaces

Gripping Cutting
Piano wire cannot be cut

Model No.	J150RBG	
Full length	159mm	
Blade length	10.0mm	
Cutting capacity	Steel wire	φ 1.5mm
	Copper wire	φ 2.6mm
	Stranded wire	5.5mm ²
(Product) weight	125g	
Retail/User prices	open price	
JAN Code (4963202-)	001359	

Long-nose pliers with vertically angled tip + Grip adapter

- Long-nose pliers with vertically angled tip (horizontally angled tip) useful for work in tight places
- Because the tip is vertically angled 45°, the pliers can easily grasp a target object even in places with limited height clearance.
- Work with recessed parts is possible since the angled tip can be seen more easily than conventional long-nose pliers.
- The blade provides outstanding cutting performance.
- Matted grip is easy to grasp and prevents slipping.

Easy even in tight spaces

Gripping Cutting
Piano wire cannot be cut

Model No.	J150RBTG	
Full length	158mm	
Blade length	10.0mm	
Cutting capacity	Steel wire	φ 1.5mm
	Copper wire	φ 2.6mm
	Stranded wire	5.5mm ²
(Product) weight	125g	
Retail/User prices	open price	
JAN Code (4963202-)	001410	

Stainless steel long-nose pliers + Grip adapter

- Made of rust-resistant stainless steel (SUS420J2).
- Spring-loaded grip helps reduce labor in continuous work.
- Equipped with jaws that can pinch and turn a thin pipe, screw or nut.
- The blade provides outstanding cutting performance.
- Matted grip is easy to grasp and prevents slipping.

Gripping Gripping Bending Cutting
Piano wire cannot be cut

Model No.	J150RSTG	
Full length	162mm	
Blade length	10.0mm	
Cutting capacity	Steel wire	φ 1.5mm
	Copper wire	φ 2.6mm
	Stranded wire	5.5mm ²
(Product) weight	130g	
Retail/User prices	open price
