

Heavy-duty nippers

- Two types of blades (with or without hole) can be selected depending on usage.
- Because of the high hardness, cutting performance and durability of the blades, the nippers are applicable to electrical work and various other fields.
- Matted grip is easy to grasp and prevents slipping.

● Piano wire cannot be cut

Diagonal nippers

- Two types of blades (with or without hole) can be selected depending on usage.
- With the blades with holes, you can easily strip sheath without damage to core wires.
- Matted grip is easy to grasp and prevents slipping.

Plastic nippers

- Thanks to the sharp cutting edge, the blades are suitable for gate, gut and tie-band cutting work.
- Spring-loaded grip helps reduce labor in continuous work.
- Matted grip is easy to grasp and prevents slipping.

J-CRAFT

Power series appeared

An eccentric lever mechanism enables cutting of thick wires, despite the compact body.

A redesigned shaft has made the pliers lighter and smaller, and lessened the physical power needed to use the tool.

Narrow elastomer grip is easy to grasp, enabling you to apply force efficiently.

The narrow grip reduces user fatigue.

Can also cut piano wire and hard steel wire.

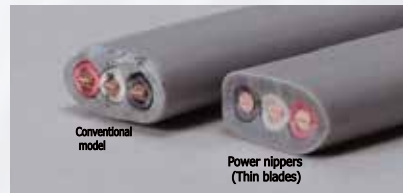

Power pliers
J200PWP/J225PWP

Power nippers
J165PWN/J185PWN

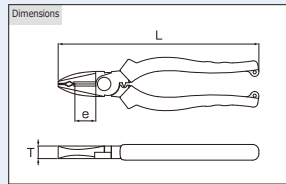

The thin flat blade with sharp cutting edge ensures beautifully cut surfaces.

Power nippers (Thin blades) J200PWNU/J225PWNU

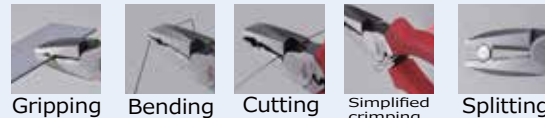

Power pliers

Eccoentric

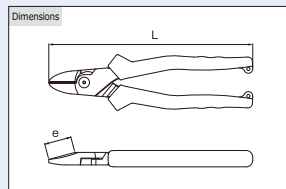

- An eccentric lever mechanism enables cutting of thick wires, despite the compact body.
- Can also cut piano wire and hard steel wire.
- Lightweight compact body.
- Multi-functional pliers featuring simplified crimping and screwdriving (1.25 – 2 mm)

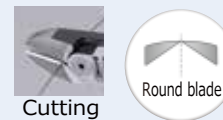

Model No.	Length(L)	Blade length(e)	Head thickness(T)	Cutting performance	(Product) weight	JAN code (4963202-)
NEW J200PWP	192mm	20.0mm	12.0mm	Steel wire Copper wire VVF wire Piano wire	245g	095747
NEW J225PWP	218mm	22.0mm	13.0mm	Steel wire Copper wire VVF wire Piano wire	315g	097857

Power nippers

Eccoentric

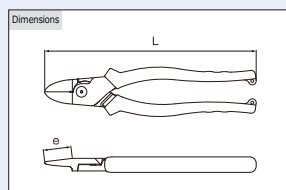

- An eccentric lever mechanism enables cutting of thick wires, despite the compact body.

● Piano wire cannot be cut

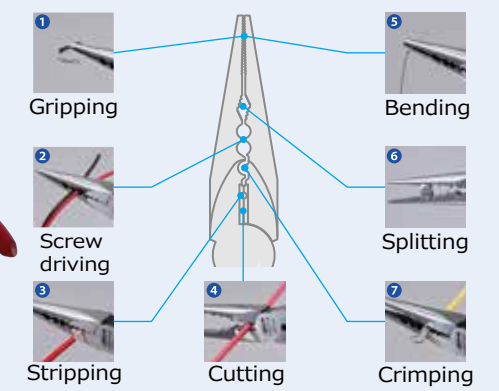

General-purpose long-nose pliers

- Super multi-functional long-nose pliers, offering seven functions in a single tool
- Useful for electrical wiring work (splitting, simplified crimping, stripping, etc.)
- Spring-loaded grip helps reduce labor in continuous work.
- The blade provides outstanding cutting performance.
- Matted grip is easy to grasp and prevents slipping.

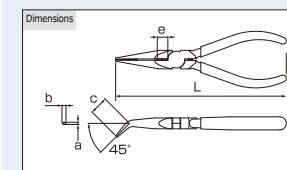

Model No.	Length(L)	Tip diameter (a, b)	Blade length(e)	Blade hole diameter(L)	Cutting performance	(Product) weight	JAN code (4963202-)
NEW J150RM	162mm	2.0mm 3.0mm	9.7mm	1.5mm	Steel wire Copper wire Stranded wire	125g	097895

● Piano wire cannot be cut

Long-nose pliers with vertically angled tip

- Long-nose pliers with vertically angled tip (horizontally angled tip) useful for work in tight places
- Because the tip is vertically angled 45° the pliers can easily grasp a target object even in places with limited height clearance.
- Work with recessed parts is possible since the angled tip can be seen more easily than conventional long-nose pliers.
- The blade provides outstanding cutting performance.
- Matted grip is easy to grasp and prevents slipping.

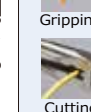

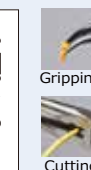

Model No.	Length(L)	Tip diameter (a, b, c)	Blade length(e)	Cutting performance	(Product) weight	JAN code (4963202-)
NEW J150RBT	158mm	2.0mm 3.0mm 17.0mm	9.7mm	Steel wire Copper wire Stranded wire	125g	097970

● Piano wire cannot be cut

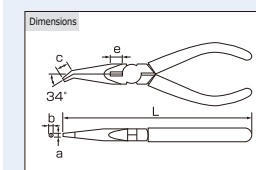

Makes work in tight places easy

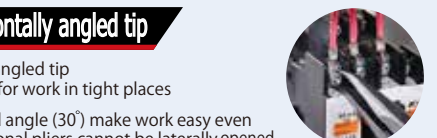

Long-nose pliers with horizontally angled tip

- Long-nose pliers with vertically angled tip (horizontally angled tip) useful for work in tight places
- ROPROSS' bending direction and angle (30°) make work easy even in tight places where conventional pliers cannot be laterally opened.
- The blade provides outstanding cutting performance.
- Matted grip is easy to grasp and prevents slipping.

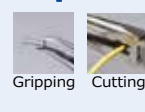

Model No.	Length(L)	Tip diameter (a, b, c)	Blade length(e)	Cutting performance	(Product) weight	JAN code (4963202-)
J150RB	159mm	2.3mm 3.3mm 9.0mm	10mm	Steel wire Copper wire Stranded wire	125g	094344

● Piano wire cannot be cut

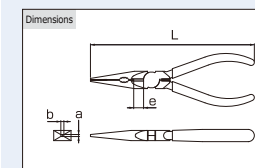

Makes work in tight places easy

Ropross

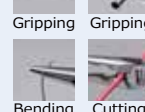

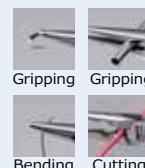

Stainless steel long-nose pliers

- Made of rust-resistant stainless steel.
- Spring-loaded grip helps reduce labor in continuous work.
- Equipped with jaws that can pinch and turn a thin pipe, screw or nut.
- The blade provides outstanding cutting performance.
- Matted grip is easy to grasp and prevents slipping.

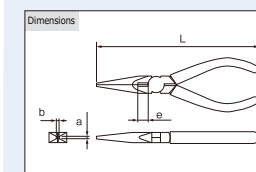

Model No.	Length(L)	Tip diameter (a, b)	Blade length(e)	Cutting performance	(Product) weight	JAN code (4963202-)
NEW J150RST	162mm	2.0mm 3.0mm	9.7mm	Steel wire Copper wire Stranded wire	130g	097932

● Piano wire cannot be cut

Long-nose pliers

- Suitable for assembly, repair and disassembly work for arts and crafts, precision equipment, etc.
- The tips demonstrate their durability particularly in grasping and bending work. The blades provide excellent cutting performance.
- Matted grip is easy to grasp and prevents slipping.

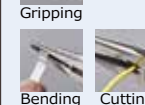

Model No.	Length(L)	Tip diameter (a, b)	Blade length(e)	Cutting performance	(Product) weight	JAN code (4963202-)
J100R	103mm	2.0mm 2.5mm	6.5mm	Steel wire Copper wire Stranded wire	45g	094184
J115R	123mm	2.0mm 2.5mm	6.5mm	Steel wire Copper wire Stranded wire	60g	094269
J150R	163mm	2.3mm 3.3mm	10.0mm	Steel wire Copper wire Stranded wire	125g	094337
J150RS	163mm	2.3mm 3.3mm	10.0mm	Steel wire Copper wire Stranded wire	125g	094375

● Piano wire cannot be cut ※ J100R and J115 are for cutting soft steel wire only.

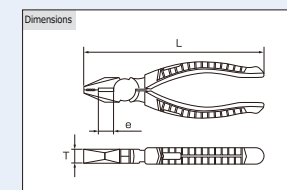

Spring (J100R/J115R/J150RS)

Pliers (Resin grip)

J200PC

- Suitable for electrical work, construction work, civil engineering work, and assembly and repair of machine parts.
- The blade provides outstanding cutting performance.
- The J200PC features simplified crimping. (1.25 – 2 mm)

Model No.	Length(L)	Head thickness(T)	Blade length(e)	Cutting performance	(Product) weight	JAN code (4963202-)
J150P	163mm	12.5mm	14mm	Steel wire Copper wire VVF wire	200g	092937
